DESCRIPTION

This dataset was originally created by [Arfiani Nur Sayidah](#). To see the current project, which may have been updated since this version, please go here: <https://universe.roboflow.com/arfiani-nur-sayidah-9lizr/apple-sorting-2bfhk>.

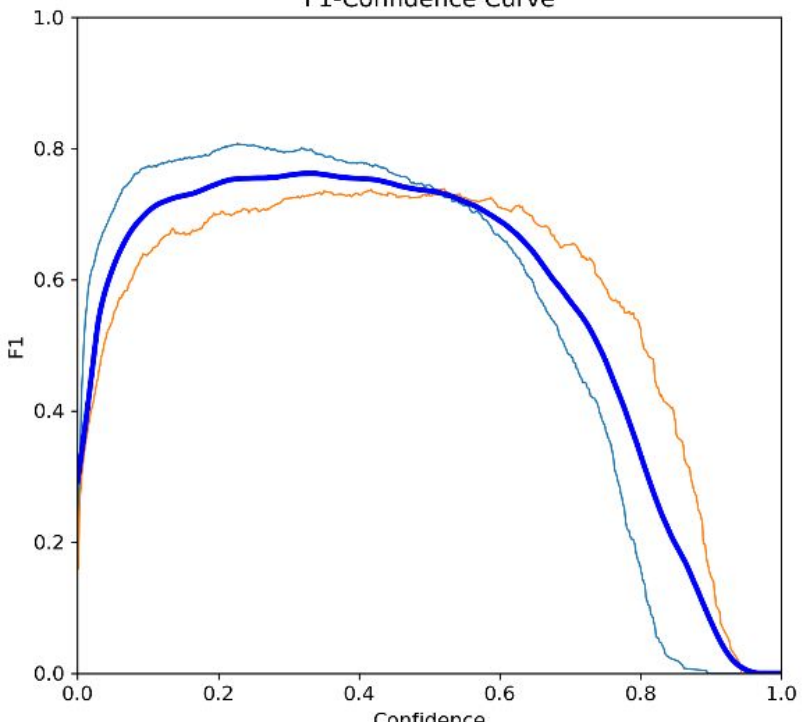

This dataset is part of [RF100](#), an [Intel-sponsored](#) initiative to create a new object detection benchmark for model generalizability.

Access the RF100 Github repo: <https://github.com/roboflow-ai/roboflow-100-benchmark>

```
python ./yolov5/train_xpu.py --data /home/intel/Downloads/apples/data.yaml --weights yolov5m.pt --epochs 10 --patience 0 --img 640 --batch 16 --name apple_yolov5m
python apple.py
```

F1-Confidence Curve

— apple
— damaged_apple
— all classes 0.76 at 0.332
